How We Will Calculate Your Balance: We use a method called "average daily balance". See your account agreement for further information regarding how we calculate your balance.

Billing Rights: Information on your rights to dispute transactions and how to exercise those rights is provided in your Credit Card Account Agreement.

Loss of Introductory APR: We may end your introductory APR and apply the Penalty APR if you become more than 60 days late in paying your bill.

How We Will Calculate Your Variable APRs: We calculate variable APRs by adding a margin to the U.S. Prime Rate published in The Wall Street Journal on the 25th day of each month. If the Journal is not published on that day, then we will use the immediately preceding edition. If the Prime Rate changes, your new rate will take effect on your next billing cycle. The APR may increase or decrease each month if the Prime Rate changes. If the APR increases, you will pay a higher interest charge and may pay a higher minimum payment. The Prime Rate is simply a reference index. If The Wall Street Journal stops publishing the Prime Rate, we will select a similar reference rate.

Prime Rate: Variable APRs are based on the **8.50%** Prime Rate as of August 28, 2023.

Purchase APR: For Purchase transactions, based on credit worthiness, we add a Margin of **5.99% - 12.99%** to the Prime Rate of **8.50%**. The Purchase APR may increase or decrease each month if the Prime Rate changes.

Balance Transfer APR: For Balance Transfer transactions, based on credit worthiness, we add a Margin of **5.99% - 12.99%** to the Prime Rate of **8.50%**. The Balance Transfer APR may increase or decrease each month if the Prime Rate changes.

Cash APR: For Cash transactions, we add a Margin of **20.65%** to the Prime Rate of **8.50%**. The Cash APR may increase or decrease each month if the Prime Rate changes.
